## OUR VICE PRESIDENTS.

The Report of the Select Committee on the Second Vice President

Constitutional Amendment Gives Some Historical Facts Which Are Quite Interesting.

WASHINGTON, May 26.—The report of the Select Committee of the House on the Constitutional amendment providing for the election of a second Vice President gives some interesting historical facts, which, although familiar to all, are quite interesting when grouped as they are in the report. Out of eighteen persons elected to the presidential office four have died before filling out their respective terms as President, three of them during the first year of their term, and the other during the second year. Of twenty-five different persons elected as Vice Presidents five died during their terms of office, one of them resigned his office, and four became President. At the close of the present presidential term, there will have been one hundred years of government under the Constitution, and during that period there will have been twenty-five years, eight months and four days (over one-fourth of the time), when the country has had no Vice President, and this without counting the short period in 1792 at the beginning of our constitutional history, when we were without a Vice President until John Adams assumed the duties of that office in that year, and in the last forty years, during the term of office of Vice Presidents Harrison, term March 4, '41-45, died April 4, '41; unexpired term, 3 years, 11 months, 10 days; Taylor, term March 4, 40-43, died July 9, '40; unexpired term, 2 years, 7 months, 25 days; Lincoln, term March 4, '43-49, died April 15, '45; unexpired term, 3 years, 10 months, 19 days; Garfield, term March 4, '81-85, died September 19, '81; unexpired term, 3 years, 5 months, 15 days. Aggregate unexpired terms, in 44 years, 13 years, 10 months, 29 days. Vacancies in office of Vice President, from 1800 to 1885: Clinton, term '00-13, died April 20, '12; unexpired term, 12 months, 14 days; Gerry, term, '13-17, died November 25, '14; unexpired term, 2 years, 3 months, 11 days; Calhoun, term '25-33, resigned December 28, '33; unexpired term, 2 months, 6 days; Tyler, term '41-45, became President April 6, '41; unexpired term, 3 years, 10 months, 28 days; Fillmore, term '49-53, became President July 9, '50; unexpired term, 2 years, 7 months, 25 days; King, term '53-57, died April 18, '57; unexpired term, 3 years, 10 months, 10 days; Johnson, term '65-69, became President April 15, '65; unexpired term, 3 years, 10 months, 19 days; Wilson, term '73-77, died September 12, '77; unexpired term, 1 year, 3 months, 12 days; Arthur, term '81-85, became President September 20, '81; unexpired term, 3 years, 5 months, 14 days; Hendricks, term '85-89, died November 25, '85; unexpired term, 3 months, 9 days. Aggregate of vacancies in 80 years, 25 years, 8 months, 4 days.

## MAXWELL ON THE STAND.

He Testifies in His Own Defense in Reference to the Death of Preller.

ST. LOUIS, May 26.—The defense opened today in the Maxwell-Preller murder trial. At ten o'clock Mr. Fauntleroy made the opening statement for the defense, and at its conclusion the prisoner went on the stand and gave a detailed description of his meeting Preller, and the latter's death under the administration of chloroform. His testimony was given naturally, and a lawyer would pronounce him a capital witness as far as the beginning of his testimony displayed his ability. As the story progressed the strain under which he was placed only showed itself in dry lips and damp fingers, and when he called particular attention to himself by stating that he was not nervous at a certain time that he was not while speaking, no one could say that it would be noticeable in a casual glance. Stripped of its verbiage, his statement amounted to this: That he and Preller were good friends, and that they met in St. Louis by agreement to take a trip to California together; that he undertook to perform a delicate operation upon the latter's leg, and that he and Preller died while under the influence of chloroform. He was horror-stricken and began to drink heavily to drown his trouble. He packed the body in the trunk, took it to the revenue cutter, and fled to California. His eccentric actions thereafter he attributed to the excessive use of liquor. The testimony was substantially the same as his confession published heretofore. He was on the stand up to six o'clock, when court adjourned.

## Durbin Ward's Funeral.

LEBANON, O., May 26.—A change was made in the arrangement for the funeral of General Ward. Instead of being from the residence, it took place from the Opera-house at one o'clock this afternoon, where the remains lay in state from ten to twelve o'clock. Tributes of respect were sent by the bars of Montgomery and Clermont Counties, the Miami Club, of Hamilton; the Ohio Club, of Cincinnati, and also the surviving members of the Seventeenth Ohio Volunteers.

## Fatal Kisses.

NEW YORK, May 26.—George Cutter, aged two, died on Thursday morning of diphtheria, which it is believed was communicated to him by the kisses of his little sister Essie, aged four, who is very ill with the disease. It is held by the physicians also that Essie was affected with the disease by being kissed by the grandfather, who is suffering from the poisoning, and also the case is attracting much attention among physicians. The family reside at Flatbush.

INDIANAPOLIS, May 26.—The prohibitionists today nominated the following ticket: Secretary of State, Rev. J. H. Hughes; Auditor, Sylvester Johnson; Treasurer, R. S. Perkins; Judge of Supreme Court, R. S. Perkins; Attorney-General, Judge W. M. Land; Superintendent of Public Instruction, C. W. Hodin.

## DAMAGING TESTIMONY.

Elkited in the Maxwell-Preller Murder Case—The Prisoner Cornered on All Important Points.

ST. LOUIS, May 27.—Maxwell took the witness stand this morning, and was cross-examined. The prosecution cornered him in statement after statement, and utterly demolished the story he told yesterday. He stood convicted by himself of deception, fraud, forgery and lying, habitually lying to his nearest friends to feed his pitiful vanity and to gain his ignoble ends. Without a blush, with an unconcern which is not so marvelous as it is monstrous, he admitted to lie after he lied to his record. His testimony to-day compared with that of yesterday may be summed up thus: He says: "I killed my friend by accident," and yet saw him die under his own hand without a call for help. He says: "It was my friend, who had helped and cheered me, that I killed by accident," and yet saw him die under his own hand without a call for help. He says: "I was crazy with grief and horror," and yet he mercilessly drew the scalpel across his breast and branded him as a traitor. He says: "I was so dazed with error and sorrow that I did not know what I was doing," and yet he could talk of fast women, feed his vanity on monstrous lies, wear his clothing, spend his money on jewelry and on wine and women, and glow over his deed while pretending to mourn for his friend. He asks the public and the jury to believe his story of accidental killing, in the light of robbery, lust and drugs. Contradiction after contradiction has condemned him in the eyes of every one. Brooks remained on the stand until four o'clock, when Mr. Martin, of his attorneys, went on the stand to testify as to his conduct after the murder. He has been a witness in the eyes of every one. ## DROUGHT IN TEXAS.

Cattle Dying in Forty-Eight Counties—Grain Crops a Failure.

FORT WORTH, TEX., May 27.—The unprecedented drought throughout North and West Texas continues. Reports received from forty-eight counties in the dry section show the crops to be almost entirely a failure. In many counties there will hardly be corn enough raised to replace the seed, while in others the wheat and oats crops are entire failures. The oldest settlers say that this is the longest drought this season known in the history of Texas. In most counties there is no grass at all and stock water is getting very scarce. The range is not as good now as it was in February last. In regard to the mortality of cattle on the trails and the great ranches of the West little that is authentic can be obtained. Reports agree, however, that the plains are covered with dead carcasses, and that hundreds of head are dying daily of starvation and thirst. Many herds are too weak to be driven to water.

## KNIGHTS OF LABOR.

Powderly's Plan for the Future Government of the Order.

CLEVELAND, O., May 27.—It is said that Mr. Powderly's plan for the future government of the Knights of Labor is the establishment of a State Assembly. There will be four assemblies. Local assemblies will be subordinate to districts, districts to State and State to National. The scheme provides, among other things, that no Assembly but the State and National shall have power to order either a strike or a boycott. If a local Assembly wants to order a strike it must first get the consent of the District and then the State Assemblies.

## Canada Fitting Out Vessels.

OTTAWA, Ont., May 27.—In addition to the \$100,000 already voted for the season for the protection of the fisheries, the Government last night asked Parliament to make a further grant of \$50,000 to enable them to make the service more effective. In the House of Commons to-day Hon. Mr. Foster, Minister of Marine, in reply to a question, said that the Government's schooner are being fitted out to protect the Canadian fisheries. The instructions to the masters of these vessels are to cruise freely and to come to the rescue of the fishery from the encroachments of the foreign fishing vessels, especially those of the United States.

## Nova Scotian Ill-Feeling Increased.

BOSTON, May 27.—A Halifax special to the *Advertiser* says: "The opinions of Portland fishing vessel owners, republished here, have created considerable excitement, and increased the ill-feeling now beginning to manifest itself. A leading man, who thoroughly understands this question, said that neither England nor Canada was anxious to enforce this 'barbarous' treaty of 1818, but the Americans would not agree to appoint a commission to modify it. The U. S. Congress, of their own free will and accord, went back to its provisions. 'We will else can England and Canada do,' he asked, 'but to vigorously enforce it, just as they enforce every other treaty and law!'"

## The Folsom Party Arrive.

NEW YORK, May 28.—The *Sun* says: "Miss Francis Folsom, bride-elect of the President of the United States, her mother and her uncle, Mr. Benjamin Folsom, arrived in the port of New York last night. They came comparatively unannounced, but not by any means unwelcomed. There was a revenue cutter to meet them, and they were transferred from the steamer *Nordlander* to the revenue cutter to shrill salutes of steam whistles and a waving of hats and handkerchiefs, quite unusual at so late an hour of the night."

## Terrible Dynamite Explosion.

TOM'S RIVER, N. J., May 27.—The drying-house of the U. S. Dynamite Company was blown to pieces to-day by an explosion, and Atwood Hyers and John Graham, who were working in the building, were instantly killed, portions of their bodies being scattered one hundred yards in all directions. Two hundred pounds of dynamite were exploded. Window-glass was broken at Forked River, thirteen miles distant, and doors were forced open by the concussion, at Warrenton, seventeen miles away.

## Swung Off.

CRAWFORDSVILLE, Ind., May 27.—John C. Henning, the slayer of the widow Volmer, was swung off a noon in the jail corridor.

## HERR MOST GUILTY.

An Anarchist Who Will Have a Grievance Now.

And Learn Something of the Law He Denounces.

NEW YORK, May 28.—Herr Most was brought to court this morning handcuffed to a thief. His associates, Schenck and Braunschweig, were with him. The courtroom was crowded. Most looked very savage and scowled viciously at every person his eyes fell upon. It was said that he was greatly annoyed at the spread of the statement which the official journal of the Socialistic party has been giving publicity to, that for years he (Most) was in the pay of the German Government, and that his presence in this country was for the purpose of destroying the labor movement here. Adolph Schenck, one of the prisoners, took the stand. He stated that he understood that the object of the meeting was to advise the use of arms against force, that if a blow should be struck against them they should strike back. The purpose of the meeting was also to protest against such action as had been taken in St. Louis, when hired deputy sheriffs shot down men and women. The meeting was that of the International Mon's Rifle Club. The witness said he was an Anarchist. He knew the meaning of the word. Just now he believed in the Government of the United States. It suited him, but it did not suit every person else. Witness did not place Most and George Washington on an equal place in governmental affairs. The prisoner Braunschweig took the stand and said that he was at work when arrested. When he entered the meeting Most was speaking, and when he had finished the witness spoke in German for ten minutes. In his remarks he declared that the presence of police at a workmen's meeting in free America was a shame. He never mentioned anything of bombs or guns. He did not know whether he was an Anarchist or not. He agreed with a great many of Most's sentiments as published in *Freiheit*. "We say openly we despise morality as called," read the Prosecuting Attorney from the *Freiheit*. "Do you agree with that sentiment?" "No, we want to keep morality," said Braunschweig. The witness did not believe in robbery, arson and murder, and said that he was not in sympathy with those who would use force. But when a man was hungry and his family starving he must do something. The defense declared that this ended their case. Surprise was expressed that Most did not take the stand. Most placed the address of the jury in his own behalf. The jury then found the whole three guilty of the charge in the indictment—misdeamnor—and recommended Schenck to the mercy of the court. The prisoners will be sentenced on Wednesday next.

## WITH A NOISE LIKE THUNDER.

The Whole Interior of a Mill Falls In—A Loss of a Hundred Thousand Dollars.

GRAND RAPIDS, MICH., May 28.—Last evening a terrific noise was heard in the Valley City mill. On investigation it proved to be the giving away of the overhead floors. The whole interior of the huge structure fell into the basement, and a large portion of the contents was soon swept away by the mill race out into the Grand river, leaving the lofty mill like an empty egg shell. There were stored in immense bins in the second, third and fourth stories of the mill, a portion between 15,000 and 30,000 bushels of wheat and about thirty tons of bran, all weighing 500 tons. In the western portion of the building was the milling machinery, of the most improved and costly styles, a portion of it having been put in but a year ago, at an expense of \$18,000. All this plunged down into the basement in the general destruction. The timbers and machinery in falling broke through the wooden side of the building, facing the river, making a gap in the wooden walls fifteen feet wide and twenty to thirty feet high. A smaller gap was made in the wall on the east side. The damage is estimated at from \$80,000 to \$100,000. The mills were insured to the amount of \$50,000, but the insurance is worthless, as it only covers damage by fire. The mill will be closed at once. The disaster occurred by the timbers yielding in the first story and forcing the up-rights, the whole came down.

## NO SECTARIANISM.

The Reading of the Bible Forbidden in Wisconsin Schools.

BELOIT, WIS., May 28.—On the petition of various persons an alternative writ of mandamus was issued yesterday by order of the circuit court of Janesville, directed to the district board of school district No. 8, in the city of Engerton, requiring the board to discontinue the reading of the Bible and other religious and devotional exercises practiced in this school, or that they show cause to the contrary before the court on the 5th day of June next. The application was based upon Section 3, of Article 10, of the State Constitution, which reads: "The Legislature shall provide by law for the establishment of district schools which shall be as nearly uniform as practicable, and such schools shall be free and without charge for tuition to all children between the ages of four and twenty years, and no sectarian institution shall be allowed therein."

## Destructive Whirlwind in Michigan.

LAPRER, MICH., May 28.—At about midnight last night, a whirlwind of terrific severity, accompanied by thunder, lightning, rain and hail, visited this vicinity, uprooting trees, twisting off signs and awnings, breaking glass and blowing down huge trees. The inhabitants were much alarmed, many taking their children with them and repairing to the cellars for safety. Much damage was done to property, but there was no loss of life yet reported.

## CANADIAN SASS.

They Will Have No Half-Way Settlement—American Vessels Must Keep Away or go to the Bottom.

MONTREAL, QUE., May 30.—That there is a strong undercurrent feeling of jealousy and animosity in the breasts of the English Canadians here against their American cousins one who has lived here any length of time can not fail to discover. The Canadian press may declare in the most vehement manner that Canadians, without exception, have naught but the kindest feelings for their Yankee neighbors, but this is not the fact. There is a deep-seated prejudice at present, and it is rapidly growing against the United States citizens and the exports of that land. The North-west of the Dominion has been up its countless acres of prairie land, crossed by the great Canadian Pacific railroad, as the par excellence of all that is fertile, while the Western States are derided as being a land fit only for the industry and cyclones to visit. Of course, this is all in the interest of immigration, and if a word, whether true or false, can be uttered which will tend to keep an immigrant with money on this side of line 45 it will surely be said. This feeling is more due to the knowledge that the land of Canada but very little is fit for settlement or capable of successful cultivation, for the reason that while the Dominion itself is larger than the entire territory covered by the United States, being so far North, hardly a greater number of acres can be planted and reaped grown on account of the severity and length of the winters here, and the early frosts than that embraced in the one State of Texas. The fishery question, now the subject of dispute, has served to bring this feeling to the surface, and it is wonderful how often the subject of war being possible is discussed at the homes and in the clubs of this and other cities of the Dominion. In the course of an interview held yesterday with a prominent member of Parliament, and who, by the way, is a strong Government supporter, he said: "There will be no treaty of this question. We will force it upon the States to declare whether they will keep their fishing vessels out of our waters or whether we shall send them to the bottom." Being asked what course would be followed by the Canadian cruisers if they met with armed resistance he said: "The Minister of Marine has declared that Canada will take consequences, and he has ordered the officers commanding the different cruisers to have orders to shoot such vessel out of the water. England is at Canada's back." He added significantly. The Minister of Marine was seen yesterday, and from him the following information obtained: There are engaged in the fisheries of Canada 59,498 men. According to the provinces they are as follows: Nova Scotia, 29,949; Quebec, 11,729; New Brunswick, 10,155; Ontario, 3,716; Prince Edward's Island, 3,535; British Columbia, 1,830. The sixty thousand men are employed in 1,177 boats, 48,725 tons measurement, and \$2,021,633 value. In 28,472 boats of \$83,257 value. The official figures of the value of the fisheries last year are as follows: Nova Scotia, \$8,383,922; New Brunswick, \$4,005,431; Quebec, \$1,719,459; P. E. Island, \$1,233,429; British Columbia, \$1,078,038; Ontario, \$1,342,691. Total, \$17,732,973. The most valuable fish to Canada is the cod, of which \$4,536,732 worth was caught last year. The other chief fish were: Lobsters, \$2,033,731; herring, \$2,475,118; mackerel, \$1,546,429; salmon, \$1,153,348; and haddock, white fish, trout and sardines, from \$500,000 to \$500,000 worth. The exports of Canadian fish are, however, of special interest, as the figures show where the greatest trade lies. The fish exports last year were as follows: To the United States, \$3,500,751; to Great Britain, \$1,545,371; to British West Indies, \$1,553,963; to Spanish West Indies, \$718,963; to French West Indies, \$130,333; to South America, \$295,647. The total Canadian exports amount to \$7,900,001. The total cost of the fishery service is \$153,215 per year, a small sum for the protection of an industry producing nearly \$18,000,000 a year, and exporting nearly \$8,000,000.

The Ways and Means Committee made an adverse report on the Mexican treaty. The conference report on the urgent deficiency bill was agreed to. The oleomargarine bill was then taken up and debated throughout the afternoon and at an evening session.

WASHINGTON, May 26.—SENATE.—Private pension bills were considered until two o'clock, when the bankrupt bill was taken up. It was soon laid aside and the bill taxing land grant lands considered. After an amendment had been added making the United States a preferred purchaser in case of land sales, the bill amending the Spanish Cession act of 1884 was discussed. Mr. Sherman explained that the bill simply explained the meaning of the existing law on points where a difference of opinion existed. Mr. Hoar protested against further anti-Chinese legislation. Mr. Ingalls opposed the bill which was finally postponed to Saturday day. At 5:50 p. m. the Senate adjourned.

HOUSE.—The Dunn free ship bill gave way for the oleomargarine bill, and discussion on that measure was resumed. Speeches were made against the bill by Browne (Ind.), Kelley (Pa.) and Morrison (Ill.). Mr. Grosvener's remarks were directed toward the Morrison tariff bill. After an amendment had been adopted requiring oleomargarine keepers and others using oleomargarine to label it as such, the House at 5 p. m. adjourned.

WASHINGTON, May 27.—SENATE.—A resolution was offered for the investigation of Indian traders. The bill forfeiting certain lands in Oregon, belonging to the Northern Pacific railroad, was then taken up and discussed during the morning hour. Several private pension bills were passed, and at 2 p. m. adjourned on the late session. The Senate adjourned at 3:45 p. m., as a mark of respect to the deceased.

HOUSE.—The conference report on the shipping bill was adopted, with the amendments included. Discussion on the oleomargarine bill was resumed. Short speeches were made by Daniels of Virginia, and Tillman of South Carolina, against, and by Butterworth, and Hitt of Illinois, in favor, although Mr. Butterworth believed the tax proposed was too high. After a number of amendments had been introduced, the House adjourned at 5 p. m. An attempt to get a night session, for further discussion, was defeated by filibustering.

WASHINGTON, May 28.—SENATE.—A bill was passed validating the general laws of Washington Territory for the incorporation of insurance companies. The resolutions offered yesterday providing for an investigation of the appointment of Indian traders was referred to the Committee on Indian Affairs. Consideration of the Northern Pacific land grant forfeiture bill was resumed. A motion to lay on the table Van Wyck's amendment for a sweeping forfeiture of the lands granted to that

a return to the ten hour system.

### The Samuel J. Randall Association.

of Philadelphia has changed  
its name and adopted resolutions  
denouncing Congressman Samuel  
J. Randall for his opposition to the  
Morrison Tariff Bill. The resolu-  
tions claim that he has shown him-  
self "recrudescent to his trust and  
unworthy to represent the Demo-

cracy of the Third Congressional  
District, the press of that District  
also denounce him.

We suppose the wedding of Pres-  
ident Cleveland to Miss Folsom  
took place yesterday evening at the  
White House. At least, it was  
officially announced that they  
would be married at that time by  
the Rev. Dr. Sunderland. Nobody  
but the President's official family  
and a few personal friends of the  
couple were expected to be present.

Mason county will vote on the  
12th of June on a proposition to  
subscribe \$50,000 to the capital  
stock of the Maysville & Big Sandy  
Railroad Company, which is to  
build a road from Cincinnati to  
Ashland. This sum is to be used  
in securing the right of way for the  
railroad, and it is thought the  
proposition will prevail by a large  
majority.

The following is an extract from  
the letter which speaker Carlisle  
wrote to the mass meeting of work-  
ingmen that met in Philadelphia  
Saturday to demand the reduction  
of the tariff:

"By the use of superior machinery  
in most of our mechanical indus-  
tries, and the employment of the  
most intelligent and productive la-  
bor in all of them, we possess  
advantages over other countries  
which would enable us to compete  
successfully with them in all parts  
of the world, if it were not for the  
artificial restraints and burdens  
which our own and unwise legisla-  
tion has imposed upon us. Under  
this legislation, which adds nothing  
to the wages of labor, the cost of  
production has been so largely in-  
creased that we are substantially  
excluded from every market except  
our own, and, therefore, as soon as  
that is fully supplied our mills and  
factories must stop and their  
employees must live on their past  
earnings or go in debt.

It is estimated that 10,000 persons  
attended an Irish Home-rule meet-  
ing in Chicago last evening. Gov.  
Oglesby, of Illinois, presided, while  
the Vice Presidential list included  
among the present and absent,  
judges, Congressmen, ministers of  
all denominations, and men promi-  
nent in all walks of life.—Courier-Journal.

Several of the leading journals of  
the country are having a great deal  
to say about the alleged scandalous  
scheme of "Kentucky spoils Demo-  
crats" to defeat Speaker Carlisle's  
re-election to Congress. Our es-  
teemed contemporaries need not  
worry themselves about this. There  
is no such scheme outside a dis-  
gruntled politician or two at Coving-  
ton. Mr. Carlisle is appreciated  
nowhere better than in Kentucky,  
and there is no office within the gift  
of the State which he could not get  
for the asking.—Courier-Journal.

As a reliable remedy, in cases of Croup,  
Whooping Cough, or sudden Colds,  
and for the prompt relief and cure of  
throat and lung diseases, Ayer's Cherry  
Pectoral is invaluable. Mrs. E. G. Elderly,  
Connellsville, Iowa, writes: "I consider  
Ayer's Cherry Pectoral a most important  
remedy for home use. I have tested its  
curative power, in my family, many  
times during the past thirty years, and  
have never known it to fail. It will re-  
lieve the most serious affections of the  
throat and lungs, whether in children or  
adults." John H. Stoddard, Petersburg,  
Va., writes: "I have never found a medi-  
cine equal to

sumption. We now regard the Pectoral

of Mr. J. Brooks and do not find  
them can get them of Rev. William  
Snead or Rev. Davis Holt, who are  
authorized to furnish them.

saw. They were raised by his uncle  
Wm. Moore.

**Notice.**  
Elder J. I. Rogers, state evangel-  
ist of the Christian Church, will  
preach at the Masonic Hall, Louisa,  
on Saturday night before the 2nd  
Sunday in June instead of next  
Saturday as previously announced.  
This change is made necessary be-  
cause of a very successful meeting  
now being held by Elder Rogers at  
Salersville.

The annual meeting of the Law-  
rence county Bible Society was held  
at the M. E. Church South Sunday  
night. B. T. Burns was elected  
President for the ensuing year, D.  
J. Burchett was chosen Secretary,  
W. D. Roffe Treasurer, and the  
Board of Directors of last year re-  
tained, with several additions. A  
collection was taken up which  
amounted to \$10.97.

The better nations become ac-  
quainted with each other, the fewer  
will be their prejudices, and more  
the likely they will be to love and  
respect each other. Just so with J.  
Monroe Taylor's Gold Medal Soda  
or Saleratus—the more you know  
of it, the more you want to, and the  
more anxious you are to have your  
friends become its patrons. It not  
only makes the best Biscuit, Bread,  
&c., but it cures dyspepsia and  
strengthens weak stomachs. It has  
no equal. Most of the Grocers have  
it.

Backache, stitches in the side,  
inflation and soreness of the bowels,  
are symptoms of a disordered state  
of the digestive and assimilative  
organs, which can be promptly and  
thoroughly corrected by the use of  
Ayer's Cathartic Pills. As dinner  
pills and aids to digestion they  
have no equal. They cure consti-  
pation.

**FOR SALE.**  
I have bought a lot of Wallaces'  
fine Merino sheep and have for  
sale cheap 80 Merino buck lambs.

Ayer's Sarsaparilla is a highly  
concentrated extract of Sarsaparilla  
and other blood purifying roots,  
combined with iodide of Potassium  
and Iron. Its control over scrofu-  
lous diseases is unequalled by any  
other medicine.

**BUSSEYVILLE.**  
Dr. Webb is improving.  
We have a flourishing Sunday School  
at this place.

was visiting friends at this place the other  
day.

Pleasant Ridge Sunday.  
Garfield Roberts was visiting friends  
at Pleasant Ridge Sunday.

squirrels.  
John Meek, of Broom Sage Mountain,  
has a fine lot of young cattle on the com-  
mons.

trip to Louisa the other day.  
Daglap Bradley, of Morgan's Creek,  
was visiting friends at Pleasant Ridge  
Sunday.

**A VERY REMARKABLE RECOVERY.**  
ME. GEO. V. WILLING, of Manchester,  
Mich., writes: "My wife has been al-  
most helpless for five years, so helpless  
that she could not turn over in bed alone.  
She used two bottles of Electric Bitters,  
and she is so much improved, and she is  
able now to do her own work."

Electric Bitters will do all that is  
claimed for them. Hundreds of testimo-  
nials attest their great curative powers.  
Only fifty cents a bottle at R. F. Vin-  
son's Drug Store.

**LACE AS AN HEIRLOOM.**  
Fragrant Dutch and Belgian Housewives  
Whose Greatest Treasure is Lace.  
Lace in quantity is never seen in the  
street in Antwerp, unless it is worn by  
English or Americans; for no Antwerp  
lady would wear her rich lace in the  
street, or allow herself to appear in a  
sheep imitation. These rules still hold  
good, though there is less rigidity than  
formerly, and young girls wear con-  
suetude and their mamma's designs to  
form and fabric which they would not  
have dreamed of ten years ago.

The domestic and social habits, how-  
ever, hold good, and are maintained as  
a matter of pride by the genuine ladies  
of Antwerp. One of these was only a  
child and would naturally have inher-  
ited a magnificent collection of  
lace, gathered and inherited  
by her mother. But she was not in-  
clined to work with the needle and  
rebelled against the necessary conditions  
imposed of learning how to mend and  
actually make lace, so as to be able to  
keep it in perfect condition. Her mother  
did not force her, but simply told her  
that the lace in the case would never be  
hers, but would be left to some member  
of the family able and willing to "enter-  
tain" and care for it. This threat was  
sufficient to induce the young lady to  
fulfill her mother's wishes, and she is  
now not only the possessor of one of  
the finest private collections of lace in  
Antwerp, both modern and antique,  
but can repair any of it so that it is ex-  
actly the same as before. Yet this lady  
recently passed and painted two rooms  
with her own hands, at a cost of fifteen  
francs for materials, because business  
being dull, she did not wish to subject  
her husband to the cost of a house  
painter and decorator, who had esti-  
mated the work and material at two  
hundred and twenty-five francs. —*Ant-  
werp Cor. Albany Argus.*

—A New York paper says: "An old  
lady of Wilton, Conn., has passed her  
108th year. She is bright and sensible,  
except for a single delusion about her  
age. She kept the record straight un-  
til she became 102, when she insisted  
that she was 200 years old, though she  
admitted that the last one hundred  
years didn't seem nearly as long as the  
first hundred. Since her last birthday  
she has called herself 300 years old.  
The old lady recently said to her grand-  
son: 'I feel sorry for the sexton, be-  
cause if I do not die soon, he will have  
to ring 400 times.'"

**Of Interest to Ladies.**  
The new treatment for ladies' diseases dis-  
covered by Dr. Mary A. Gregg, the dis-  
tinguished English Physician and nurse, which  
has revolutionized the entire mode of treating  
these complaints in England is now being in-  
troduced into the U. S., under a fair and novel  
plan.  
Sufficient of this remedy for one month  
trial treatment is sent free to every lady who  
is suffering from any disease common to her  
sex who sends her address and 13 cent stamps  
for postage, charges, etc.

It is a positive cure for any form of female  
disease and the free trial package is many  
times sufficient to effect a permanent cure.  
Full directions accompany the package (which  
is put up in a blue wrapper) also, once the  
full trial is over, no more stamps will  
be sent after Aug. 1st, 1886. Address,

**EXCITEMENT IN TEXAS.**  
Great excitement has been caused in the  
vicinity of Paris, Texas, by the remark-  
able recovery of Mr. J. E. Corley, who  
was so helpless he could not turn in bed,  
or raise his head; everybody said he was  
dying of consumption. A trial bottle of  
Dr. King's New Discovery was sent him.  
Finding relief, he bought a large bottle  
and a box of Dr. King's New Life Pills;  
by the time he had taken two boxes of  
Pills and two bottles of the Discovery, he  
was well and had gained in weight thirty-  
six pounds.

Consumption free at P. Vinson's

**IS IT WORTH ANYTHING?**  
To feel absolutely protected against Fever  
and all its attendant evils, Typhoid fever,  
Typhus fever, Gastric fever, Bilious fever,  
Diphtheria, Pneumonia, Scarletina, Summer Complaint,  
Blood Poisoning, and all and every form of com-  
mon disease?

Is it worth anything to be able to effectively  
cleanse the blood in your entire system, to renew  
your body, to permanently cure Constipation, Dyspep-  
sia, Water-brash, and sour stomach? To cure  
Jaundice and stoppage of Gall ducts, to cure  
Stomachic and Biliousness, to cure Liver  
complaint and Cancerous liver, to cure Kidney  
diseases of long standing? To be free from Gout,  
Rheumatism, Neuralgia, Sciatica, and kindred  
troubles?

Is it worth anything to enjoy good health,  
to have a good appetite, and to sleep well? If  
all these things are worth anything, you can secure  
them almost for the asking. We know from long  
experience that this statement is true, but we  
also know that few will accept it as truth. Not-  
withstanding, we have decided to send you a  
small pamphlet, written by a physician, in which  
we give you the full particulars of the power of  
these Pills to prevent and cure disease. Are  
not you willing to take our word, to run the  
risk of being swindled, to speak out of 25  
cents, for the possibility of securing such a great  
benefit as we know Parsons' Pills would be to  
you? If you should once become acquainted  
with these Pills, you would never cease to be  
grateful.

Parsons' Pills were a wonderful discovery, and  
there are none others like them in the world.  
The information contained in the wrapper  
around each box is worth many times the cost of  
a box of the Pills. We use the purest drugs to  
be found in the known world; but even these, be-  
fore being used, are subjected to the peculiar  
purifying process known only to the chemist's art.  
If families and individuals could only be made to  
realize the marvellous power of Parsons' Pills in  
the prevention and cure of disease, and in  
promoting the general health, a vast amount of  
suffering and expense might be prevented.

Our business was established in 1810, and is the  
oldest of the kind in this country. Is it there-  
fore, likely that we would put forth an untruth-  
ful or deceptive statement? Frauds and false  
pretenses do not remain long in business in this  
country. We suppose that Parsons' Pills may  
be found at your nearest store; but if not, we  
will send one box by mail, post-paid, for 25 cents  
in stamps. Or we will send two boxes of Pills  
and a beautiful engraving of President Cleve-  
land and his Cabinet for 50 cents, all post-paid.  
The engraving is 2 1/2 x 3 1/2, and retails for 50 cents.  
We will send free to all who send us their ad-  
dress a handsome illustrated pamphlet contain-  
ing information of great value. If you order  
mention this paper.

House St., Boston, Mass.

**THE BEST**  
been ever bestowed upon man is perfect  
health, and the true way to insure health  
is to purify your blood with Ayer's Sarsa-  
parilla. Mrs. Eliza A. Clough, 34 Arling-  
ton St., Lowell, Mass., writes: "Every  
winter and spring my family, including  
myself, use several bottles of Ayer's Sarsa-  
parilla. Experience has convinced me  
that, as a powerful

purifier, it is very much superior to any  
other preparation of Sarsaparilla. All  
persons of scrofulous or consumptive ten-  
dencies, and especially delicate children,  
are sure to be greatly benefited by its  
use." J. W. Starr, Laconia, Iowa, writes:  
"For years I was troubled with Scrofu-  
lous complaints. I tried several different  
preparations, which did me little, if any,  
good. Two bottles of Ayer's Sarsapa-  
rilla effected a complete cure. It is my  
opinion that this medicine is the best  
blood

of the day." C. E. Upton, Nashua, N. H.,  
writes: "For a number of years I  
was troubled with a humor in my eyes,  
and unable to obtain relief until I com-  
menced using Ayer's Sarsaparilla. I have  
taken several bottles, am greatly bene-  
fited, and believe it to be the best of blood  
purifiers." H. Harris, Creel City, Ramsey  
Co., Dakota, writes: "I have been an  
intense sufferer, with Dyspepsia, for the  
past three years. Six months ago I began

AN ORGAN OF  
LIVING IDEAS AND LIVE ISSUES.  
AN ENEMY OF  
Monopolies, Oligarchy, and the  
Spirit of Sectional Strife.

The Courier-Journal (HENRY WATKINSON Ed-  
itor-in-Chief), is the acknowledged Representa-  
tive Newspaper of the South, is Democratic in  
politics, and first, last, and all the time is for a  
reduction of the War Tax as levied on the  
people by the tariff now in force.

**The Weekly Courier-Journal**  
is the best weekly newspaper published in the  
United States, and for the quantity and quality  
of matter that appears in each issue of it, it is  
the treasure. Its telegraphic news facilities  
outstrip any other paper, and it has the services  
of the ablest writers and correspondents in the  
country. It presents the news of the week from  
every section of the World. It gives to its readers  
throughout the year a greater number of Serial  
and Short Stories by prominent and popular  
writers than any of the highest priced magazines.  
It is in every respect a Model Political and Family  
Paper.

The Weekly Courier-Journal has by  
far the Largest Circulation of any Dem-  
ocratic Newspaper in America.  
It is acknowledged by press and people  
throughout the United States to be a great  
paper; great in size; great in enterprise; great  
in ability; great in its correctness of infor-  
mation; great in variety; great in every sense  
of the word. It is the paper that everybody  
wishes to have, and without it is a great opportunity  
lost. Those who once take it are not willing to  
be without it in their homes.
